Summer Vacation Long Driving Tips

Going driving this summer? Summer long drives to your dream out of town destinations can really be exciting yet exhausting especially when you're half prepared.

Before you leave home, make sure you and your car are ready for the long drive in hot weather. Here are some tips to keep you sailing safely down the summer road:

- ☞ Pack lightly and smartly as you can to avoid adding unnecessary load on your tires. By packing lightly, you'll also avoid blocking the view in your mirrors while driving.
- ☞ Pre-plan your route prior to your departure. You may wish to plan some comfort stops along the route at service stations.
- ☞ If you are traveling with children, regular stops are a must. Let them bring some of their favorite toys, portable video games or music player to keep them occupied.
- ☞ Remember to always buckle up for safety.
- ☞ Make sure to leave a decent gap between your car and the vehicle in front. Driving a car with a heavier load means you need more space to stop or pass.
- ☞ When traveling slower than the flow of traffic, be courteous. Pull over where possible to let faster vehicles pass.
- ☞ Obey all signs and signals, including speed limits, traffic lights, and stop signs.
- ☞ Have your vehicle checked to make sure it's safe. Repair or replace worn parts to avoid the worry and time-consuming costly repairs that could spoil your trip.
- ☞ Check all tires for condition and pressure, including the spare tire. Replace your windshield wiper blades if they are worn or cracked. Make sure all lights work, including signal lights. Check oil and water levels and battery.
- ☞ Place a flashlight, flares and first-aid kit, where they can be reached easily in case of emergency. Sunglasses, road maps, a notebook, and a pencil or pen will all come in handy.

- ☞ If you drive with a mobile phone, avoid unnecessary calls and always make the driving task your top priority. Absolutely never drink and drive.
- ☞ Make sure that you have the right motorcar insurance cover to give you peace of mind during your long drive.

These are just a few tips that can make your trip better when out on the road this summer. Enjoy your vacation!
